AT THE BALLANTYNE PRESS

PRINTED BY SPOTTISWOODE, BALLANTYNE AND CO. LTD.

COLCHESTER, LONDON AND ETON

NOTICE TO SHIPOWNERS AND AGENTS.

INCORRECT CHARTS.

THE attention of the Board of Trade has frequently been called to cases in which British vessels have been endangered or wrecked through Masters attempting to navigate them by means of antiquated or otherwise defective Charts.

The Board of Trade desire, therefore, to direct the especial attention of Ship-owners and their Servants and Agents to the necessity of seeing that the Charts taken or sent on board their Ships are corrected down to the time of sailing. Neglect to supply a Ship with proper Charts will be brought prominently before the Court of Inquiry in the event of a wreck occurring from that cause.

CAUTION.

NOTICES TO MARINERS.

A MONTHLY SUMMARY containing all the Notices to Mariners received at the Board of Trade during the preceding five months, respecting any alterations in Lights, Buoys, or Beacons, any newly-discovered danger, or any alterations in, or additions to, the Admiralty Charts, is published by the Board of Trade on the 1st of each month.

A Supplementary Summary containing all information received at the Board of Trade subsequently to the date of publication of the last Monthly Summary is also published on or about the 7th, 14th, 21st, and 28th of each month, and oftener when necessary.

Copies of these Summaries are supplied at all the Mercantile Marine Offices in the United Kingdom to Masters of Foreign-going Ships, and at all the Custom Houses to Masters of Home Trade and Coasting Vessels, free of charge.

Copies of the Monthly Summary are also sent to the Government Shipping Offices at each Colonial and Indian Port, and to the British Consulate at each Foreign Port, for the inspection of Mariners who may not be in possession of the latest Summary.

In addition to the above, all the Notices to Mariners, immediately they are published, are posted at all the Mercantile Marine Offices and Custom Houses in the United Kingdom for the inspection of Mariners and others interested.

If these Notices are disregarded by Masters, Owners, and Agents of ships, the responsibility rests with the parties who neglect to make use of information gratuitously offered and abundantly circulated.

BOARD OF TRADE,
Marine Department.

Specify LOVERIDGE'S!

Tested to 100% Overload.
Screwed Rivetted Collars.
Superior Forged Straps.
Oil Reservoir Feed.
Flush Compact Axle.
Anti-Chafing Shoulders.
Lathe-deepened Sheaves.
Best Malleable Cheeks.

LOVERIDGE'S CARGO BLOCKS are heavier, stronger, and better finished than many others and cost but a trifle more. They have extra large bearings, heavy gun-metal bushes, ideal oiling arrangements (with ample reservoir instantly refilled—no troublesome grease cavities) and rust-proof aluminium paint finish.

AN UNSOLICITED TESTIMONIAL:—

"I must give you credit for having given the market the finest self-lubricating cargo block I have seen. After this year's wear the block is in absolutely the same condition as when I bought it; I cannot see any wear at all on either pin or bush."

List on application to the Sole Makers—

Corrugated Metallic Joints

(TAYLOR'S SYSTEM).

The attention of Engineers and others is most respectfully solicited to the principles of our unique packing.

This packing consists of metal rings, oblongs, and squares cut from very thin sheets of brass or other material, and corrugated. It is for the purpose of being placed in the joints (with cement) in the joining together of metal pipes and other metal articles, thus making the joints steam and water tight with more certainty and greater durability than other methods which are now in use.

Prices and Sample on Application.

All orders value ONE POUND and upwards
